Predator 13

The Predator 13 was completely engineered – below and above the waterline – to deliver the perfect platform for fishing and on-water sporting. Our Pro Staff examined seating, rod placement, paddle holders and total “fish-ability” and incorporated it all into this revolutionary boat. Something changes when you take your fishing to the surface level. It alters the playing field and provides a more personal connection to your environment – and the battles that take place there. You just may find the closer you get to the water, the further you can take your game.

"Now this a fully loaded Kayak!"

Posted: Wed., Jan 22, 2014 at 10:29 am by Old Town Canoes & Kayaks | 0 Comments

"My 1878 Trappers canoe built/made in Old Town, Maine . Completely restored. I traveled lakes and ponds in Maine with this and now enjoy canoeing around Back-Bay in Newport Beach, California. I would love to get it appraised."
